

## CONTENTS OF VOLUME 9

- Agnihotri, V. P.** Studies on *Aspergilli*. X. Utilization of polysaccharides, 703.
- Alexander, M.** See Mitchell, R., 169.
- Allen, O. N.** See Roslycky, E. B., 199, 709.
- Allen, W. E.** and **McVeigh, I.** Growth of penicillin-resistant and penicillin-sensitive strains of *Staphylococcus aureus*, 179.
- Anderson, G. W.** See Comer, A. G., 321.
- Anderson, L. E.** See Coffey, G. L., 665.
- Antia, N. J.** A microbiological assay for biotin in seawater, 403.
- Armstrong, R. E.** See Yarosh, W., 417.
- Aronson, J. N.** See Perkins, J. P., 791.
- Bakerspigel, A.** Chlamydospore production by new strains of *Candida albicans*, 909.
- Balasubramanian, A.** See Rangaswami, G., 719.
- Baratawidjaja, R. K., Hewson, A., and Labzoffsky, N. A.** Application of immunofluorescence in the diagnosis of influenza from throat washings, 563.
- Fluorescent antibody staining in the serodiagnosis of trichinosis, 625.
- Barta, G.** Preliminary observations on the lysis of *Bordetella pertussis* by lysozyme and urea and the liberation of protective antigen in soluble form, 629.
- Bather, R.** See Webb, S. J., 87.
- Bayley, S. T.** See Kushner, D. J., 53.
- Beaulieu, M.** Some factors affecting the yield of the monocytosis-producing agent, 473.
- Best, A.** See Rhodes, M., 799.
- Birch-Andersen, A.** See Murray, R. G. E., 393.
- Blakley, E. R.** Effect of alkyl benzene sulphonate on yeast metabolism, 117.
- Boring, J., Kushner, D. J., and Gibbons, N. E.** Specificity of the salt requirement of *Halobacterium cutirubrum*, 143.
- Bradley, R. H. E.** Some ways in which a paraffin oil impedes aphid transmission of potato virus Y, 369.
- Carter, G. R. and Greig, A. S.** The recovery of diphtheroids from L-type organisms contaminating tissue cultures, 317.
- Chadwick, P.** Rapid screening test for *Bacillus anthracis*, 734.
- Rapid identification of *Pasteurella pestis* by microscopical observation of bacteriophage lysis, 829.
- Chagnon, A.** See Dubreuil, R., 359.
- Chambers, A. K.** See McDonald, I. J., 303, 871.
- Chan, E. C. S., Katznelson, H., and Rouatt, J. W.** The influence of soil and root extracts on the associative growth of selected soil bacteria, 187.
- Chan, K. K. W.** See Plagemann, P. G. W., 75.
- Child, J. J., Simpson, F. J., and Westlake, D. W. S.** Degradation of rutin by *Aspergillus flavus*. Production, purification, and characterization of an esterase, 653.
- Coffey, G. L., Anderson, L. E., Douros, J. D., Erlandson, A. L., Jr., Fisher, M. W., Hans, R. J., Pittillo, R. F., Vogler, D. K., Weston, K. S., and Ehrlich, J.** Chalcomyacin, a new antibiotic: biological studies, 665.
- Collins, A. M. and Roy, T. E.** Transduction of chloramphenicol and novobiocin resistance in staphylococci, 541.
- Comer, A. G., Anderson, G. W., and Garrard, E. H.** Gamma irradiation of *Salmonella* species in frozen whole egg, 321.
- Crocken, B. and Nyc, J. F.** Utilization of L- $\alpha$ -glycerophosphorylcholine by a lecithin-deficient strain of *Neurospora crassa*, 689.
- Dawson, P. S. S.** A continuous-flow culture apparatus. The cyclone column unit, 671.
- Day, E. A.** See Seitz, E. W., 431.
- Demain, A. L.** On the utilization of D- $\alpha$ -aminoadipic acid by lysineless mutants of ascomycetous fungi, 111.
- Dempster, G.** See Grodums, E. I., 891.
- Diena, B. B. and Tanner, C. E.** Purification studies on the toxin-inactivating substance "Noxiversin", 843.
- Diena, B. B., Wallace, R., and Greenberg, L.** A flocculation test for salmonella antibodies using sensitized bentonite particles, 221.
- Preparation of typhoid somatic antigen vaccine. IV. Methods of lysing typhoid organisms and the use of bentonite in the preparation of typhoid vaccine, 279.
- Douros, J. D.** See Coffey, G. L., 665.
- Dubreuil, R., Chagnon, A. et Pavilanis, V.** Résistance comparée des virus poliomyélitique, herpétique, spumeux et SV-40 à l'acidité, 359.
- Dundas, I. D., Srinivasan, V. R., and Halvorson, H. O.** A chemically defined medium for *Halobacterium salinarum* strain 1, 619.

- Ehrlich, J.** See Coffey, G. L., 665.
- Eisenberg, R. C. and Evans, J. B.** Energy and nitrogen requirements of *Micrococcus roseus*, 633.
- Elliker, P. R.** See Seitz, E. W., 431.
- Eren, J.** See Henis, Y., 902.
- Erlandson, A. L., Jr.** See Coffey, G. L., 665.
- Evans, J. B.** See Eisenberg, R. C., 633.
- Faber, J. E.** See Koontz, F. P., 499.
- Farkas-Himsley, H. and Seyfried, P. L.** Lethal biosynthesis of a bacteriocin, vibriocin, by *V. comma*. I. Conditions affecting its production and detection, 329.
- Lethal biosynthesis of a bacteriocin, vibriocin, by *V. comma*. II. Vibriocin production and sensitivity in relation to redox potentials and streptomycin resistance, 339.
- Farley, M. A. and Lichstein, H. C.** Glucose inhibition of aspartase synthesis by *Aerobacter aerogenes*, 835.
- Fedoroff, S.** See Webb, S. J., 155.
- Ferrer, E. B., Stapert, E. M., and Sokolski, W. T.** A medium for improved recovery of bacteria from water, 420.
- Fisher, M. W.** See Coffey, G. L., 665.
- Fleming, H. P.** See Pelcher, E. A., 251.
- Fluegel, W.** A shelf-type gradient incubator, 859.
- Fox, D. L. and Lewin, R. A.** A preliminary study of the carotenoids of some flexibacteria, 753.
- Francis, L.** See Lang, D., 849.
- Garcia-Acha, I. and Villanueva, J. R.** The use of *Streptomyces* enzyme in preparation of protoplasts from mold spores, 139.
- Garrard, E. H.** See Comer, A. G., 321.
- Gascón, S. and Villanueva, J. R.** A comparison of the lytic activities of actinomycetes on cell walls of yeast, 651.
- Gibbins, L. N. and Simpson, F. J.** The purification and properties of D-allose-6-kinase from *Aerobacter aerogenes*, 769.
- Gibbons, N. E.** See Boring, J., 143; Sierra, G., 491.
- Gillespie, D. C.** Cell wall carbohydrates of *Arthrobacter globiformis*, 509.
- Composition of cell wall mucopeptide from *Arthrobacter globiformis*, 515.
- Gopalkrishnan, K. S.** See Narasimhachari, N., 134.
- Gordon, R. E. and Ryneanson, T. K.** Variation in pigmentation by a strain of *Mycobacterium smegmatis*, 737.
- Greenberg, L.** See Diena, B. B., 221, 279; Shimizu, T., 93, 613.
- Gregory, K. F.** See Plagemann, P. G. W., 75.
- Greig, A. S.** See Carter, G. R., 317.
- Griffiths, B. W.** See Shimizu, T., 93.
- Grodums, E. I. and Dempster, G.** Brown fat lesions and regeneration in experimental Coxsackie B-1 virus infection, and after localized freezing, 891.
- Habeeb, A. F. S. A.** A comparative study of the immune sera of animals immunized with *Clostridium perfringens* types C and D, 863.
- Halvorson, H. O.** See Dundas, I. D., 619; Holmes, P. K., 904.
- Hans, R. J.** See Coffey, G. L., 665.
- Haskins, R. H.** Morphology, nutrition, and host range of a species of *Pythium*, 451.
- See also Narasimhachari, N., 134.
- Henderson, V. E.** See Rouatt, J. W., 227.
- Henis, Y.** See Kletter, B., 577.
- Henis, Y. and Eren, J.** Preliminary studies on the microflora of a highly saline soil, 902.
- Henis, Y. and Kletter, B.** The effect of some antimicrobial agents on *Myxococcus* species, 646.
- Hennessy, D. J.** See Hoffman, J., 648.
- Hewson, A.** See Baratawidjaja, R. K., 563, 625.
- Hodges, R. W.** See Webb, S. J., 87.
- Hoffman, J. and Hennessy, D. J.** Staphylococcus toxin-antitoxin titration using in vitro paralysis and in vitro hemolysis as indicators, 648.
- Holmes, P. K. and Halvorson, H. O.** The inactivation and reactivation of salt-requiring enzymes from an extreme obligate halophile, 904.
- Hunter, N. W.** Evidence of phosphorylase activity in *Stylonychia pustulata*, 459.
- Isa, J. M.** See Savage, A., 425.
- Jeanes, A.** See Orentas, D. G., 427.
- Johnson, R. M. and Larkin, J. M.** An apparatus for continuous synchronization of growing cultures, 907.
- Jordan, D. C.** Effect of chalcomycin on protein synthesis by *Staphylococcus aureus*, 129.

- Katznelson, H. See Chan, E. C. S., 187; Rouatt, J. W., 227.
- Kaufman, D. D., Williams, L. E., and Sumner, C. B. Effect of plating medium and incubation temperature on growth of fungi in soil-dilution plates, 741.
- Kenny, C. P. and Lees, H. An unusual growth medium for HeLa cells, 133.
- Kletter, B. See Henis, Y., 646.
- Kletter, B. and Henis, Y. Comparative studies on the growth of myxobacteria on bacterial suspensions, 577.
- Koontz, F. P. and Faber, J. E. A taxonomic study of some Gram-negative, non-fermenting bacteria, 499.
- Kushner, D. J. See Boring, J., 143.
- Kushner, D. J. and Bayley, S. T. The effect of pH on surface structure and morphology of the extreme halophile, *Halobacterium cutirubrum*, 53.
- Labzoffsky, N. A. See Baratawidjaja, R. K., 563, 625.
- Ladd, Sister F. C. Comparative evaluation of culture tube closures, 727.
- Lang, D., Francis, L., and McCallum, L. Observations on an unknown organism recovered from recurrent oral lesions in man, 849.
- Larkin, J. M. See Johnson, R. M., 907.
- LeBlanc, N. N. and Musgrave, A. J. Some microbiological studies of two species of aphids, *Aphis fabae* Scop. and *Macrosiphum pisi* (Harris) (Hemiptera, Homoptera: Aphididae), 65.
- Lee, K.-H. and Yuzuriha, Y. O. A fortified medium for *Lactobacillus acidophilus* strain R-26 in the bioassay of deoxyribonucleic acid, 287.
- Lees, H. See Kenny, C. P., 133.
- Lewin, R. A. See Fox, D. L., 753.
- Lichstein, H. C. See Farley, M. A., 835.
- Lindeberg, G. and Lode, A. Release of ultraviolet-absorbing material from *Escherichia coli* at subzero temperatures, 523.
- Lindegren, C. C. See Pittman, D., 103.
- Lode, A. See Lindeberg, G., 523.
- Louie, D. D. See Perkins, J. P., 791.
- McBride, M. E. Flagellar production and amino acid composition in chloramphenicol-resistant and -sensitive bacteria, 731.
- McCallum, L. See Lang, D., 849.
- McCoy, E. See Roslycky, E. B., 199, 709.
- McCurdy, H. D., Jr. A method for the isolation of myxobacteria in pure culture, 282.
- McDonald, I. J. Methionine requirements for growth of a species of *Micrococcus*, 415.
- McDonald, I. J. and Chambers, A. K. Some characteristics of proteinases of an obligately psychrophilic red-pigmented bacterium and of *Serratia marcescens*, 809.
- McDonald, I. J., Quadling, C., and Chambers, A. K. Proteolytic activity of some cold-tolerant bacteria from Arctic sediments, 303.
- MacDonald, J. C. Biosynthesis of pyocyanine, 809.
- Maciejowaka, Z. and Williams, E. B. The effect of cellulose additions and moisture level on mycoflora of soil, 555.
- McKeen, C. D. See Wensley, R. N., 237.
- McLaren, A. D. and Skujins, J. J. Nitrification by *Nitrobacter agilis* on surfaces and in soil with respect to hydrogen ion concentration, 729.
- McVeigh, I. See Allen, W. E., 179.
